

Danièle HOLLANDO

Architect, designer

*"Give life to both, the most noble and simple materials encountered,
during trips.*

Breath life and history to the places we touch"

Zoom on... Danièle Hollando

Since the age of 10 she wanted to embrace the profession of Frank Lloyd Wright.

During her numerous trips and stays abroad she has cultivated her taste for freedom, adamantly refusing to submit herself to "established life", inventing, creating, designing, meticulously putting the finish touch on even the smallest detail, while creating new trends and vaster horizons... and today with **X-LINE**, by sharing the freedom to create.

X-MODULES and **X-COMBS** are the first creations of **X-LINE**, subsidiary of the **JEFKA** company (architecture, concept, creation, design, renovation, interior decoration) Jefka has realized numerous projects in France (renovations, restorations, restaurant "404"), In United Kingdom (restaurant "Momo"), Morocco (architecture, hotels, private interiors...), Canaries Islands (Hotel Lanzarote), Egypt (traditional architecture, Hassan Fathy, private interiors), Greece (Hotel Paradise Corfu).

Danièle Hollando in few dates...

Creation web site : www.xliberte.com
- 2006: Development line of furniture X-Modules (long Modules, Modules in Plexiglas)

X-MODULES

Concept design by Danièle Hollando, registered design

Furniture to create infinitely...

« Furniture must adapt to men not the other way around »

From a simple module in medium (MDF - Medium Density Fibreboard)
anything is possible!

storing,
hiding,
exposing,
stacking,
place side by side,
put together
separate,
play,
decline,
transform,

in height
in width
in color
both side

easy assembly
easy to change
without nail and screw

discover the freedom to create.

The puzzle composition

My first is:

The **basic module, medium** (MDF), empty and bottomless, including inside 5 pre perforated rows, suitable for separation units (1 horizontal and 3 verticals).

Stackable and to be placed side by side by means of linking devices made in plexiglass, without nails or screws. The basis can be equipped with fix legs or wheels.

Dimensions: L 91,9 cm, H 33,4 cm, D 43,0 cm

Price: 129 euros HT

New : The basic module, in plexiglas empty and bottomless, including inside 5 pre perforated rows, suitable for separation units (1 horizontal and 3 verticals).

Stackable and to be placed side by side by means of linking devices made in plexiglass, without nails or screws. The basis can be equipped with fix legs or wheels.

Dimensions: L 91,9 cm, H 33,4 cm, D 43,0 cm

Price: 1 400 euros HT

New : The super module, A long (MDF) module, empty and bottomless, including inside 2 x 5 pre perforated rows, suitable for separation units 1 separation in center fixed and 1 double capacity of the basic module.

Stackable and to be placed side by side by means of linking devices made in plexiglass, without nails or screws. The basis can be equipped with fix legs or wheels.

Dimensions: L 179 cm, H 33,4 cm, D 43,0 cm

Price: 249 euros HT

The corner module , to craft a space or follow the corner of a room

Dimensions: L 43 cm, H 33,4 cm, D 43,0 cm

Price: 109 euros HT

The extension pro bareless module for files and filing cabinets

Dimensions: L 91,9 cm, H 33,4 cm, D 43,0 cm

Price: 109 euros HT

The puzzle composition

4 drawers to choose from with aluminum handles and drawing possibility on both sides from the largest to the narrowest (+ 2 optional sizes on request).

Price : starting at 23 euros HT

4 internal and movable interior separations units, without nail and screw, which interlock by means of pins in the pre perforated rows

Price starting at: 4,20 euros HT

2 connecting units to connect the units between themselves in height or sideways

Price starting at 5,60 euros HT (both)

2 colors: black and natural (more colours and veneering, possible according to quantity)

According to your desires,
your actual mood,
a unit becomes low table,
a bookshelf becomes a separation unit,
an open space becomes a music space.

X-COMBS

A Danièle Hollando creation, registred design

A new concept of shelves in the air

Held between floor and ceiling or from a wall, this comb is supporting unit for shelves, ideal to **demarcate space** it allows the infinite variation of orientations in an open space.

According to a prop and stay principle **adjustable up and down** alone or many, it is set according to individual desire in a room or in a space.

On the whole height and on both sides according to the selected model, **notches support the shelves in glass.**

The "combs" are made of aluminum and are available in **sizes:**

~ 2m60 to 3m60

~ 3m10 to 4m10

~ 3m60 to 4m60

Price for a Comb, shelves supporting unit starting at 1 390 euros HT
